Table of Contents

With over a decade and a half of experience, NuSummit Cybersecurity has successfully delivered IAM solutions across multiple countries, helping organizations secure their digital identity infrastructure. NuSummit Cybersecurity IAM experts provide fast-track IAM strategy, robotics-driven IAM, and IAM managed services.

NuSummit Cybersecurity is a global specialist, dedicated to protecting identities, data, applications and infrastructure through streamlined governance, advanced engineering, seamless system integration, and managed operations.

Why NuSummit Cybersecurity + WSO2?

Why NuSummit Cybersecurity + WSO2

Executed WSO2 CIAM programs, including:

- Greenfield implementations
- Consumer journey implementations
- Legacy platforms to WSO2 to migrations
- 24 X 7 CIAM managed services

Global success stories

50+ experienced CIAM experts across industry verticals

Dedicated CoE for CIAM and in-house accelerator for CIAM programs

NuSummit Cybersecurity' WSO2 Services

Services across CIAM project lifecycle

Planning and Strategy

- Self-service app profiling for App owners
- Migration approach
- Architecture design
- HA and DR strategy

Deployment

- Greenfield implementation
- Transform existing CIAM
- Automation using connectors
- Auto migration from existing CIAM platform to WSO2

Managed Support Services

- System maintenance
- Upgrades and enhancements
- DR readiness
- CIAM operations (using robotics)
- Audit defense and compliance

Engineering Experience with WSO2

Enhancing User Experience

- Custom user portals using REST APIs
- Wrappers for CIAM migration
- Chat bot integration for access requests
- Mobile app for IOS and Android

Increasing System Footprint

- Connector development factory
- Robotics driven connectors
- SCIM connector pool (in development)

Capability Enhancement

- Robotics-driven config code generation
- Text message-based approvals
- Seamless integration with SIEM for UEBA

Team Expertise

250+
IAM Professionals

Success Stories with WSO2

Government Authority for trade and commerce

- Implemented proper data handling, consent management, and user privacy controls for the Government Authority for trade and commerce enabling data privacy and protection and helping comply with local and global regulators.

- Prevented fraud and identity theft by implementing solutions to protect against unauthorized access, account takeovers, and fraud through features like multi-factor authentication (MFA), biometric authentication, and secure password management.

- Integrated with UAE Pass to streamline identity verification and improve user experience, reducing risk of unauthorized access or identity fraud.

- Integration with UAE Pass allowed the client to access verified and accurate user data, enabling more personalized services while gaining user trust by securely using their personal information.

- Access to multiple services with a single digital identity, reducing the need for repeated registrations.

World's largest ID system

- Collaborated with **World's largest ID system** to manage **1,000,000,000 (BILLION)+** identities by providing accurate and verified identity.

- Implemented solution for to ensure **adherence to KYC norms** used by many sectors like banking, telecom, and government that require KYC compliance.

- Implemented support for **biometric authentication** (fingerprints, iris scans) and OTP-based verification, offering a quick and secure way to authenticate users.

- Integrating the identification system into a CIAM system **reduced fraud, identity theft, and fake accounts** by ensuring only legitimate users can access services.

- The system integration ensured that businesses could access user data only with **explicit consent, complying with the privacy regulations. CIAM system manages the consent process**, ensuring transparency in data sharing.

NuSummit Cybersecurity' accelerator for WSO2 - CIAM

Platform for Access Lifecycle Management

"An extensible solution to simplify and automate app integration with CIAM platforms "

Core Features

Excel-based documentation to a secure web-based process.

Rapid onboarding in leading IAM products.

Change control and digital tracking of sign-offs and version history.

Dashboards, statistics, and reporting.

Benefits of PALM

Increased Efficiency and Security
- 25% efficient access profile process.
- 85% efficient app integrations with IAM.

Workflow Driven
Platform built with RACI (Responsible, Accountable, Consult, Inform) at its core.

Part of the Ecosystem
Interconnected with other systems in the Enterprise Ecosystem.

Accurate Access Structure
Accurate collection and representation of entitlement structure.

About WSO2

Founded in 2005, WSO2 is the largest independent software vendor providing open-source API management, integration, and identity and access management (IAM) products. WSO2's products and platforms—including our next-gen internal developer platform, Choreo—empower organizations to leverage the full potential of APIs for secure delivery of digital services and applications, enabling thousands of enterprises in over 90 countries globally to drive their digital transformation journeys.

Our open-source, API-first approach frees developers and architects from vendor lock-in, enabling rapid digital product creation. Recognized as leaders by industry analysts, WSO2 has over 800 employees worldwide with offices in Australia, Brazil, Germany, India, Sri Lanka, the UAE, the UK, and the US, with nearly USD100M in annual recurring revenue.

About NuSummit Cybersecurity

NuSummit Cybersecurity helps build and transform cybersecurity postures to enable businesses to mitigate risks. We are a pure-play cybersecurity services company with deep expertise in Identity and Access Management, Risk Advisory, Security Verification, Managed Detection and Response, and Security Engineering services.

Our unique products and services help businesses build and transform security postures while mitigating risks. Our focus is to strengthen security resilience by minimizing the occurrence of attacks, threats, and risks so that you can drive change, innovate, and accelerate growth.
